Sports Day

A week from to-day, Wednesday, June 20th, is the date set for the Didsbury Sports, and provided it does not rain too heavily, a big time is expected. This is the second affair of this kind to be held in Didsbury, the last taking place here a year ago, at which there was an attendance of over a thousand, and the prospects now are looking good for an attendance as large this year.

The program consists of as many races as can be desired, both in harness and running races and horses from a large territory are now in town training for the event. According to Mr. George Julien, the President, there are already nearly forty horses lined up for the event and prospects good for a bunch, sure.

The prizes offered are well worth trying for and amount up to \$500.

Aside from the large race program there are several other features which will go to make the day a success. A camera man from the Fox Film Company, Calgary, will be on the grounds to take moving pictures of the races, crowds, or anything else that may occur interesting and these will be shown at the Didsbury Opera House about a month later. Refreshments will be served on the grounds. In the evening, commencing at 6 p. m., a baseball game will be played between Didsbury and Olds at the Diamond east of the track. Following this at 8 p. m., a good program is out. In addition to the showing pictures at the Opera House, and to wind up the day properly a dance will follow at which the Pepp Bros. Orchestra from Red Deer will supply the necessary accompaniment.

There is only one other thing necessary to make this a great success, this is your attendance to help make a crowd. Tell all your friends and acquaintances to be sure and come and you will have done your part.

"BUY DAD A TIE—FATHER'S DAY"

Tradition and some clever advertising made Mother's Day. From the Gulf of Mexico to as far north as the climate will permit a mother to live, and from the Atlantic to the Pacific, custom which is a strange combination of contending forces and influences has set aside one day in three hundred and sixty five in which the sacred name of mother should be worshipped. This adoration largely takes the form of flowers which are strewn across the unending pathway of Mother's life on this one day. It is a fitting though inappreciated tribute to a mother's unchallenged position in the heart of the world, and the sentiment of the whole world has been enriched by it.

What About Dad? But what about Dad? Has he not endured the heat and burden of the day too? Has he not carried a load of responsibilities, faced a multitude of anxieties, perplexities and worries, struggled with difficulties and gone home in the evening with a smile on his face as if nothing had ever ruffled the even surface of an unmovable rock? Is not the sweat of his brow, the strain of his back in the foundation of that structure we call "home"? It is the ambition of every father to give his children a better chance in the world than he, himself, had, to show paths that were difficult for him, easier for the "kiddie" to smooth out the unpleasant high ways and by ways so that infant feet may tread them with more security. No one knows this better than Mom.

Heed The Small Things

In these latter days people have become so used to hearing of and talking about millions, especially millions, and hundreds, even thousands of millions, in national debts, that seldom or never is the old childhood rhyme of a generation heard—"little drops of water, little grains of sand, make the mighty ocean and the beautiful land." And it is a thousand pities that this is so, and it indicates a development of a disregard, even a contempt, for little things, a tendency of the present-day generation which is responsible for much of the extravagance and waste so noticeable in this country in comparison with other lands where for many centuries the people have been taught to live frugally and give heed to the small things.

For months past the newspaper press of the country has been filled with discussions in Parliament, Legislatures, farmers' conventions, and the editorial columns, of the great subject of wheat marketing and the pros and cons of the advisability of a Wheat Board. It is a big subject, involving hundreds of millions of bushels of wheat, hundreds of millions of dollars, tens of thousands of individual farmers, and all the complications of the grain trade, grain exchanges, flour milling industry, rail, lake and ocean shipping. Important as this large problem unquestionably is, the regrettable fact is that the attention of the individual, as well as of the public at large, has become so engrossed upon it in the effort to achieve a big gain, that the many small avenues of profit and ways of soundly managing small losses, which in the aggregate are often as big, are lost sight of and all but ignored.

The attention of the writer was drawn the other day to a statement by a Saskatchewan government official to the fact that of fifteen carloads of potatoes bought by Saskatchewan wholesale houses in April, only two were shipped from Saskatchewan points, the remainder being imported from other provinces, while at the same time there was a surplus of potatoes in the hands of Saskatchewan farmers not being marketed. Why? Way did Saskatchewan wholesale import potatoes for consumption in Saskatchewan, paying heavier freight on the longer haul instead of buying the home grown product? Because so many Saskatchewan growers are careless of the little things, and thus lose their own market. Poor grading of potatoes, diseased potatoes, dirt, improperly binned, some thus containing few pounds, some being found, are among the reasons given why wholesale import instead of buying at home. Little things in themselves, but which are costing Saskatchewan farmers heavily loss, and imposing on Saskatchewan consumers an unnecessary expense.

In the same issue of the newspaper in which the above statement appeared was a post office report to the effect that sixteen million letters, more or less, are sent in Canada in a year, and no less than 50 per cent. is due to carelessness on the part of the sender. Apart from the loss thus sustained by the sender and the receiver, this carelessness adds enormously to the expense of the postal service, thus operating to keep up postage rates and increase taxation. Yet each individual, as a consequence, is but a "little" matter, although the total runs into tens of millions of which we have to talk about these days.

The neglect to look after the growth of weeds on an individual farm may likewise cost a little money, but one of two neglected quarter sections may likewise cost a whole township and reduce the yield of wheat per acre throughout the entire area. The neglect of a few dollars' worth of one dollar per bushel means a loss of the order of over \$2000. After all, is this a little matter? In the aggregate, could not more be saved our farmers by successfully fighting the weed pest than can be made on them by any Wheat Board?

A smoker carelessly throws away a match on a cigarette stub and starts a fire on some fire and a house of thousands of dollars' worth of children's worth of property is destroyed, yet the match used was such a little commonplace "negligence." A child is allowed to play with matches, and the home is destroyed. A man or boy carelessly handles a gun, he didn't know it was loaded, and a life is taken or a person blinded or maimed for life.

Who dares say these are little things after all? Yet it is just these little things which are costing the lives of millions of dollars' worth of valuable forests in Canada every year, and the loss of much more valuable human lives. Canada's life loss is rated as the heaviest per capita in the whole world. We are paying for it, and poverty will be called upon to pay an even heavier price. And the pay, the crime of it is that nearly all of this loss is preventable and almost all of it due to carelessness, to our criminal disregard and contempt for unimportant little things.

"I Was Terribly Weak After Baby Was Born"

Mrs. H. McCleure, Norwood, Ont., writes:

"After my baby was born, I was terribly weak and run down, with pains across my back. I had heard so much of Dr. Chase's Nerve Food that I decided to try it. Three boxes proved enough to make me quite strong and well again. I also used Dr. Chase's Ointment for a rash which broke out on the baby, and the rash disappeared completely in a short time."

Anglo-American Accord

Relations Between the Two English-Speaking Nations Were Never Better

The Subgrave Institution of the United States reports that relations are "distinctly" less friendly. That may or may not be true. So far as fundamental interests go, the relations between the two countries were never better, and for a century they have been better than those of any two other great powers which rub elbows. The best evidence of how fundamentally good they have been is that whenever relations have been tested by really serious disputes the matter has naturally been entrusted to some form of arbitration. Between the two peoples it can truly be said that war has been morally outlawed.

It is therefore not necessary, and probably not useful to sit up nights making the temperature and pulse of Anglo-American relations. Made or unmade, relations are bound to come and go, and somehow profound friendship makes have an unhappy faculty of accentuating as much unfriendliness as the case. Neither the British nor the American people is given to flattery and union. They naturally distrust and dislike them. And when they read solemn pronouncements about international relations being deeply affected by moving pictures or American home life they grow very weary at Miss Emily and meditative Martines. —The N.Y. World.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets, her little ones she would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved, of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gamble, Bensenville, Ill., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers or by mail for \$1.00 a box from The Dr. Williams Medicine Co., Brockville, Ont.

What No One Knows

Professor Dunlop, of the Department of Experimental Psychology at Johns Hopkins, has started something on being asked what the psychology is of the men and women who take part in endurance during contests, the acts in return. Why do we take part in races at all? Why do people hold pre-eating contests or go in for amateur theatricals on college athletes? Well, now, it begins to look as if psychology were going to be as really interesting—Providence Journal.

For some fortunate men their personality is half the battle when they champion a cause, and Lord Robert Cecil is one of these. Once they believe that a man is honest, sincere and not self-seeking people listen to him gladly, and that is the deepest impression which Lord Robert has made upon his audiences. WEDNESDAY, JUNE 13th

Man has been attending horse races for thousands of years and probably continues to do so, notwithstanding the automobile shall have been succeeded by some other wonderful invention. The horseless age will never appear if its coming is dependent on the automobile or any other fantastic invention supplanting the horse in the affections of the people. The beauty of his horse, his arched neck and undulating nostrils, his swiftness of movement, all appeal to the eye today even as they did years ago. Men with sufficient funds to gratify their pleasures will continue to pay fabulous prices for horses until the end of time. That's why our "Sports Day" is so popular too.

Alma Rubens in Big Role

Alma Rubens makes a thrilling return to the screen in the Paramount picture, "The Valley of the Silent Men," which comes to the Didsbury Opera House June 15 and 16. The picture, the scenes of which are laid in the Canadian Rocky Mountains, and Miss Rubens, in the part of a French Canadian girl, risks her life repeatedly in the process. Miss Rubens lost none of her charm or ability in the several months which occupied the screening of the picture. The supporting players are excellent.

SUFFERED SO FROM HEART AND NERVES LIFE WAS A BURDEN

Mr. A. H. Lee, Brampton, Ont., writes:—"I am delighted to let you know what I have to say regarding the good Milburn's Heart and Nerve Pills did me."

A short time ago I suffered with heart and nerve trouble, and was so bad I could not sleep only about two hours each night. My heart was so bad I had spells when driving on the road and would faint away, and neighbors would carry me in from my wagon. I also took these pills in the night and during my daily work on the farm. My nerves were so bad I would jump out of bed, and was then compelled to walk the floor before I could settle down again, but after taking a few boxes of

MRS. HENRY McDONALD

This Article Will Interest Every Mother!

"Toronto, Ont.—Dr. Pierce's Favorite Prescription is the greatest help in motherhood of any medicine I have ever known. I am the mother of six children and I suffered greatly each time except the last one, when I was advised to take Dr. Pierce's Favorite Prescription, which I did, and I got along just fine. I felt well and strong and had practically no suffering, and had a grand baby. That has always been very quickly afterward. I am so thankful to have been advised of this medicine. It gave me such wonderful help."—Mrs. Henry McDonald, 3 Wilket Avenue.

Health is of vital importance to every mother. Do not neglect the most valuable asset you have. Get this Prescription of Dr. Pierce's from your neighborhood druggist, in tablets or liquid, or send for a free trial. Write to Dr. Pierce's Laboratory in Bridgeport, Ont.

Where Does Responsibility Rest

More Care Should Be Taken In Issuing Motor Licenses

In Philadelphia an automobile got on the sidewalk and killed a young woman. When the driver was arrested it was found that he was a paralytic, utterly helpless as to one leg and partially so as to one arm. It was further disclosed that he had been thus crippled from childhood. Yet the state of Pennsylvania had issued him a license to drive an automobile. On his trial his infirmities were pleaded in his behalf, but he was sentenced to imprisonment for four to six years. "The case raises the question," properly comments the New York Herald, "as to whether the responsibility for this fatality was exclusively that of the partially-crippled driver or whether some share of it should not fall upon those who created the conditions which permitted the issuance of a license to one in his condition."—Buffalo Express.

'BUY DAD A TIE'—FATHER'S DAY

Continued from page 1

er—or is more willing to admit it; no one better than son and daughter who have grown up and have, perhaps, lived over again a parent's life, and none feel more by instinct than little children.

Therefore it is in an effort to commemorate Dad that the Father's Day movement has been started and the slogan of "Buy Dad a Tie—Father's Day" is now universal on the North American continent. Sunday, June 17th, is set aside as Father's Day and instead of earnings, buy Dad a tie. Poor old Dad, he'll appreciate it.

BASKETBALL

On Saturday last in a closely contested game the Grade VIII girls of Didsbury defeated the Olds girls by a score of 10 to 8. This is their second victory this season as on May 24th they also defeated the Olds team on their home grounds by the score of 4 to 2.

MIDGET BASEBALL

The Didsbury Midgets won from the Olds Midgets in a decisive manner on Saturday afternoon at Olds by a score of 13 to 1. Our boys claim the championship of the Midgets in their class, having been undefeated all spring and summer.

The good work of the Didsbury battery and the consistent team work was responsible for the win.
